The following comments are in response to the Examiner's Statement of Reasons for Allowance in the Notice of Allowability dated January 27, 2006. Applicants respectfully disagree with the Examiner's Statement of Reasons for Allowance because such statements may have unintentionally introduced some ambiguities in what was otherwise a very concise and thorough examination of the Claims of this patent application. While Applicants believe that the claims are allowable, Applicants do not acquiesce that patentability resides in the features paraphrased in the Reasons for Allowance.

Also, reasons for allowance are only warranted in instances in which the record of the prosecution as a whole does not make clear the Examiner's reasons for allowing a claim or claims (see 37 CFR §1.104(e)). In the present case, Applicants believe the record as a whole does make the reasons for allowance clear and therefore no statement by the Examiner is necessary or warranted.

Respectfully submitted,
